NATIONAL COUNCIL OF UNIVERSITY RESEARCH ADMINISTRATORS

REGION VII

STATEMENT OF INTEREST

Nominee's Statement of Interest:

My interest in volunteering for Region VII Chair-Elect stems from my two professional passions: education and research administration. Serving as Chair-Elect would allow me to contribute to the professional development of Region VII members by combining my passions, my vision, and my experiences on numerous program committees and service in Regions III, IV, and VII.

My goals as Chair-Elect are to support the current Chair in directing regional affairs; assist with the regional meeting program and logistics; and provide networking and service opportunities for Region VII members.

After the one-year term as Chair-Elect, I would focus on increasing opportunities for volunteerism for regional members; exploring new ways to meet member professional / educational needs outside the regional meeting; recognizing regional member contributions; and addressing diversity and inclusion at the regional level.

The above list is suggestive, as the vision for the Region must be a shared vision in order to be successful. Together, we can identify ways to make impactful changes that will benefit current and future generations of the Region VII membership.
